

Sir / Madam

As a recent graduate student. I am writing to apply for the job advertised on April 8, 2022 through your website.

I am a very motivated and enthusiastic person and I have shown this on several occasions. For example, I have worked as a part -time event coordinator for three months while studying at university. I also have experience working as a system developer (Programmer) for six months during my training. As you can see my experience may not be related to the job I applied for myself. With my experience and interest, I believe it will help me in this position and allow me to work to the best of my ability.

Working with other team members such as event coordinators and programmers trained me to work with any type of person and improved my communication skills with clients who ranked higher than me has encouraged me to apply for this position and to further improve these skills .

I believe that I will be a good asset to the company and am ready to discuss my application further at any time. I feel that I have the necessary qualities and I look forward to receiving a response. I thank you in advance for your time and effort.

Salam

Lukhmanhakim
